## **1. Introduction**

### **1.1 System Requirements**

- Windows 98 / ME / 2000 / XP / Vista / Win 7
- USB 2.0 Host 、 USB HUB (Optional)

### **1.2 Multilingual Support**

- Simplified Chinese 、 Traditional Chinese 、 Japanese and English

### **1.3 Function**

- Update firmware version.
- When bad blocks over original setting will cause UFD (USB Flash Disk) to be read only. Use this tool can increase reserve bad block and solve read only problem.

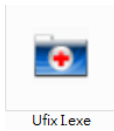

### **1.4 Note**

- User must backup all data in the UFD because Ufix I will format UFD when execution.

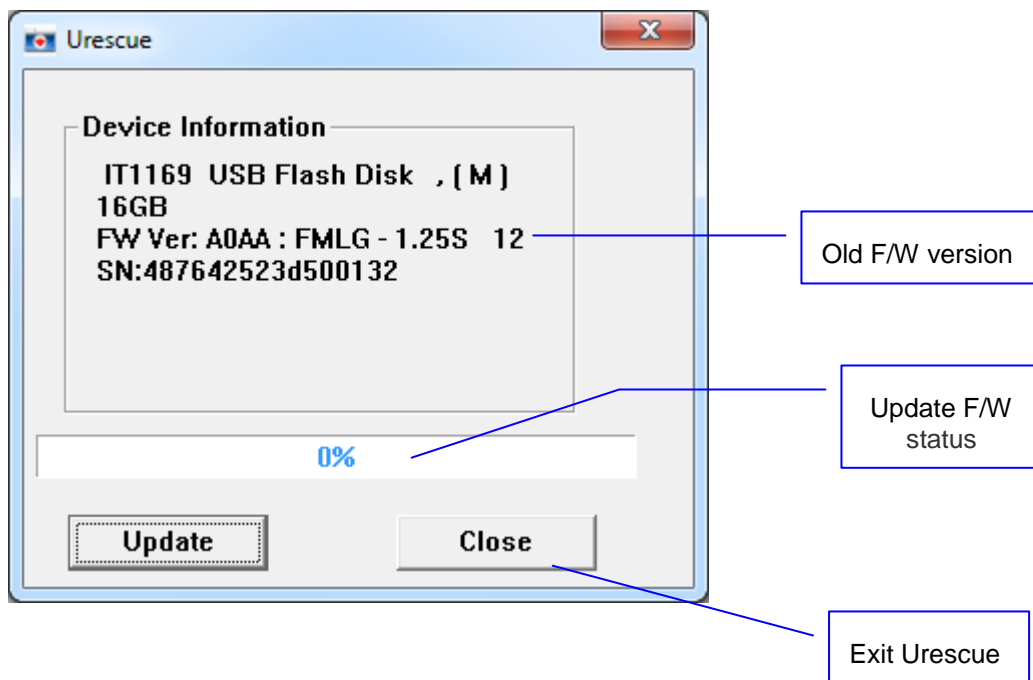

## 2. Ufix I Function Description

- Plug in UFD and execute ◦

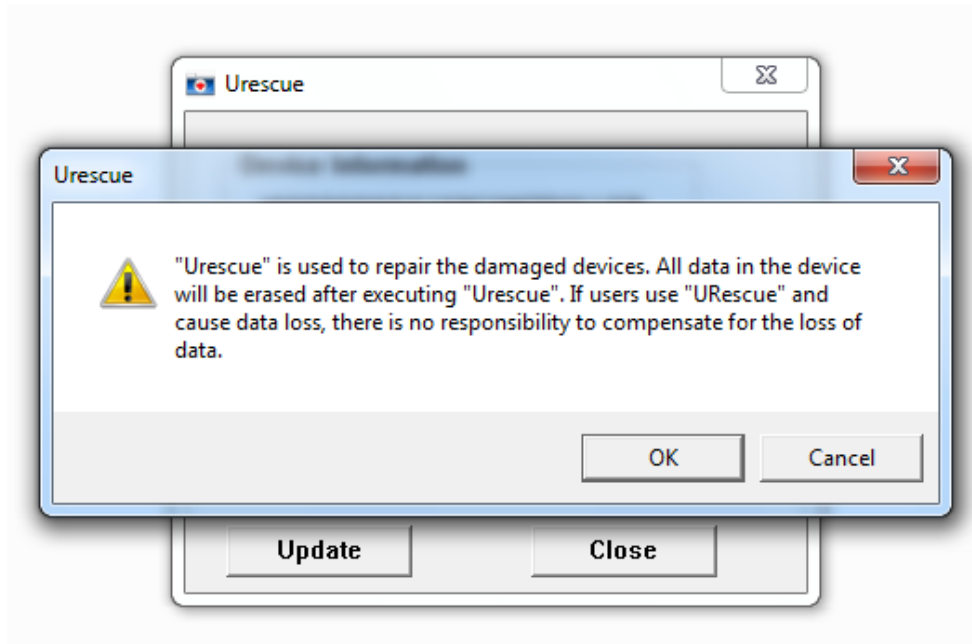

- Ufix I will format and re-partition your UFD to one partition disk ◦

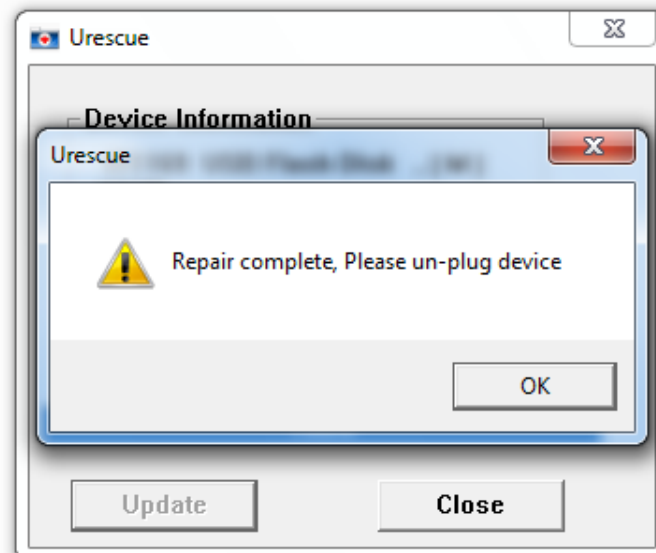

### 3. Ufix I Operation Step

- After press "Update" following window will pop up.

- Press OK to start

- After above message pop up means repair complete please unplug UFD.
